TARIS range

TV moments - as unique as you.

Our TARIS with direct LED display and Local Area Dimming provides a extremely high UHD resolution. HDR and 10-bit colour depth not only markedly improve the picture, they perfect it: with brilliant and natural colours and stunning contrasts. The sonorous and surprisingly powerful sound system is concealed by an elegant metal cover that is tilted slightly back to add an intriguing visual accent. Six front-facing two-way speakers with bass reflex channels provide another reason for acoustic delight: MetzSoundPro technology guarantees crystal-clear trebles and rich bass frequencies. A vast range of convenient functions – such as the integrated digital recorder with 500 gigabytes of storage – round off this exceptional television.

TARIS range
