IFA 2023: A new, compact premium television from Metz **The Metz Classic CALEA compact 40**

Zirndorf, 1 September 2023

A new addition to the CALEA family: by introducing the Metz Classic CALEA compact 40, the traditional manufacturer from Franconia is rounding off its product portfolio of compact full HD televisions Made in Germany with another in-demand format.

With the new CALEA compact 40, Metz is closing the gap between 32 and 43-inch screens in its range of compact full HD televisions Made in Germany. "The highly interesting 40-inch format is very rare on the market, despite the fact that there is still a demand for it," says Metz CEO Dr Norbert Kotzbauer. "A high-quality premium television Made in Germany, the Metz CALEA compact 40 is the perfect choice for all those looking for compact dimensions without having to compromise on convenience and technology."

Premium quality Made in Germany

The traditional manufacturer from Franconia develops and produces the CALEA compact 40 at its company headquarters in Zirndorf, as it does all Metz Classic brand devices, and is celebrating its 85th anniversary this year. Intuitive operation and exceptional sound and picture quality are also all integral to the new 40-inch model. Sophisticated panel technology with LED backlighting in full HD resolution ensures a captivatingly sharp, detailed TV experience – and optimum energy efficiency. The unique, two-way front speaker system paired with Metz's own MetzSoundPlus technology produces a rich sound with clean trebles and basses and distinct voice intelligibility.

A full range of features

Despite its compact size, the CALEA compact 40 offers a range of convenient features. Thanks to an integrated triple tuner, it receives television via satellite, cable and antenna with no need for additional receivers, and supports the timeshift function via USB. It can be connected to the internet via LAN and WLAN, providing convenient access to HbbTV and media libraries. It also features a CI+ interface for pay TV. External devices and streaming sticks can be connected to the full HD television via its three HDMI ports. The Metz Classic CALEA compact 40 will be available in stores from September for €1,199 RRP.
